Pricing

Professional services fee for managing / planning / set up the campaign is CLP 500,000 for this project (covering three months). For ad spending I recommend starting around CLP 500,000 (for initial campaign). This can be adjusted up or down depending on your budget and how broadly you want to reach your audience. CLP 500,000 is a good starting point to build brand visibility.

The best way to market your services is to understand how you client looks before they realize they need you
